## Course Profile

Course No. SIB3051

### Sibelius 3 one day training course for beginners and new users

This on-site comprehensive 1 day short course is an introduction to Sibelius 3 and is suitable for beginners and new users. This course has been designed to help you learn Sibelius 3 in your own environment using your computer set up. Our Software Instructor can lead you through a step-by-step training guide consisting of practice exercises for beginners and intermediate users.

Topics covered:

- Overview and general look and feel of Sibelius 3
- Creating a score from scratch and also from templates
- Basic note entry via computer keyboard
- Basic note entry via Midi keyboard
- Basic editing of the musical score
- Simple arranging and music part extraction
- Editing page layout of extracted parts

## Course Information

This course is designed as a starting point for your staff who are required to teach EDEXCEL Music and Music Technology AS and A2 levels. Both staff and students are welcome to attend the training day.

A set of course notes will be provided for future reference.

**Dieter Hester** is our Sibelius software course director.

He brings to this course a wealth of experience in generating musical scores using technology gained both commercially and from appointments teaching Music Technology at Luton Sixth Form College (AS, A2, CIT, BTEC), Manshead Upper School (A2) and Queensbury Upper School (AS, A2). He is currently an experienced examiner for EDEXCEL A2 Music Technology 6717/01 Composing using Technology.

### Training Dates and Fees
